Introducing HealthSafe ID™ One username. One password.

A new enhanced login on myuhc.com® called HealthSafe ID will let you access your health benefit information and tools using just one username and password, on any website or app that uses HealthSafe ID.

Get started using your HealthSafe ID.

Registration is easy. Just follow these simple tips.

Log into myuhc.com with your current username and password and follow the prompts to create your new HealthSafe ID username and password. (You will be required to set a new username and password.)

• Forgot your current username and password? A recovery option is available in the login section, just follow the recovery prompts and you will be on your way.

• You must have a valid email address to create your HealthSafe ID.

• If you use the UnitedHealthcare Health4Me® app, you already have a HealthSafe ID. Now you can log into myuhc.com using the same username and password.

• New to myuhc.com? Just click Register Now.
