Current UHC Member: How to find a preferred Lab or Freestanding Facility using myuhc.com

1. Log into www.myuhc.com. Click on **Find a Doctor**
2. Select **Find a Provider** (this will open a new window)
3. Select **Change the Location**. Enter your **home zip code** in the zip code box and select **Update Location**.
4. Select **Tests and Imaging**

5. Select **Lab Tests** or **Imaging** to find a **Freestanding Lab/Imaging Facility**

6. **Freestanding facilities are defaulted the top of the page. Note: you do not need to “select” freestanding facility.**

   All Freestanding Facilities will have a label to the right of the facility name/place.

7. **If the facility does not have the label “freestanding facility,” they are not considered freestanding and you will be responsible for the higher co-insurance.**
