Investment services are independently offered through a third party financial institution. By transferring funds into an HSA investment account you can potentially benefit from capital appreciation in the value of mutual fund holdings. However, you will also be exposed to a number of risks, including the loss of principal amount invested, and you should always read the prospectuses for the mutual funds you intend on purchasing to familiarize yourself with these risks. Past performance is no guarantee of future results.

The HSA investment account is an optional, self-directed service. We do not provide investment advice for HSA investment account participants. You are solely responsible for any investment account decisions you make. Mutual funds and brokerage investments are not FDIC-insured and are subject to investment risk, including fluctuations in value and the possible loss of the principal amount invested. The prospectus describes the funds’ investment objectives and strategies, their fees and expenses, and the risks inherent to investing in each fund. Investors should always read the prospectus carefully before making any investment decision.

System response and account access times may vary due to a variety of factors, including trading volumes, market conditions, system performance, and other factors.
