How to find a physician, hospital, labs or other facility

Prior to becoming a member, you go to myuhc.com, click on Find a Physician link and choose the UnitedHealthcare Choice Plus Network and follow below steps.

After you become a UnitedHealthcare member, the quickest way to find a physician, specialist or hospital in the UnitedHealthcare network is to go online to myuhc.com.

1. Simply go to myuhc.com, log in (or register if it’s your first time visiting the site).
2. Once in the site, click on the Find Physician, Laboratory or Facility tab or the large Find a Doctor button located in the center of the page.
3. Click the Find a Provider button to search for providers in your network.

4. Follow the directions to help you define your search.
   • Search by Name, Facility, Specialty or Condition by clicking the *Go* button or enter.

Click on Change Address to make sure you are searching around the zip code or city of your preference if different from your resident address.
• Click on the **Get Started** button to perform a Personalized Physician Search.
• Click on any of the quick links under **Physician Specialties**, **Facilities** or **Conditions**.
5. Narrow your results by clicking on the available filter options.

Look for UnitedHealth Premium Tier 1 physicians who have received one of the following Premium designations:

- Quality & Cost Efficiency
- Cost Efficiency & Not Enough Data to Assess Quality

UnitedHealth Premium Designation program recognizes physicians that meet guidelines for providing quality and cost efficient care. The fact that a doctor does not have a quality designation does not mean that the doctor does not provide quality health services. All doctors who are part of the UnitedHealthcare network must meet our standard credentialing requirements (separate from the Premium program).
6. You can create a directory and either download, email or fax the directory for your review.
