Finding a doctor or hospital on myuhc.com

Use doctors, hospitals, pharmacies, labs and other providers and facilities in your UnitedHealthcare health plan network to help you save money and lower health care costs.

1. Log into myuhc.com. You can create an account by clicking on “Register Now”.

2. Once logged go to the find a doctor search.

3. Your ZIP code will automatically be used – you can change this by clicking “Change location”. Then you have two choices:
   • Enter the provider name, facility or medical group in the search box.
   OR
   • Click on the icon that reflects the type of provider you are looking for and follow the prompts.
Choose from Primary or Specialty care, and then select the type of physician.

A list of doctors in your ZIP code area will be provided under Primary Care Physician.

Click the doctor’s name to find additional information, including address, phone number, if they are accepting new patients, hospital affiliation and if the doctor is a UnitedHealth Premium® Tier 1 provider. Just look for the blue indicator.

If you need the provider ID# to identify your PCP, you’ll find it under “All Locations.”

Call us with any questions.
Call the member number on your health plan ID card.

Freestanding Facilities
Find a “Freestanding Facility” by clicking “Places” or “Tests & Imaging,” when you begin your search. (see the screen shot in step 4)
