

**Reminder: 27 biweekly pay periods in 2015**

As a reminder, there are 27 biweekly pay periods in calendar year 2015.  
Please note the following:

- Biweekly 27 (December 30th pay date) will not have health and welfare deductions taken. This includes medical, dental, vision, life, AD&D, disability, FSA, HSA and legal.
- Deductions based on compensation such as retirement contributions, tax withholding (federal, state, Social Security) and other legally required deductions will be taken as normal.
- The earnings (less pre-tax deductions) and taxes withheld for Biweekly 27 will be included in your 2015 Form W-2, which may cause your 2015 W-2 earnings to be higher than your annual salary; this will depend on the amount of your pre-tax deductions.
